GET IN TOUCH

Hi! I'm **ALI WIGART**, founder of Bonks®.

Since the dawn of peoplekind, we've dealt with undie blunders: a sweeze, a shart, some swass, & the all too familiar breakthrough bleed. As a woman & mom, I know I've had it all.

But I truly **HAD IT** a few years back when my luggage was lost in transit to a remote part of latin america & I was forced to let it all hang out. Never again.

As a career apparel designer, I created Bonks as a failproof way to ensure you're *literally* always covered. Whether it be an accident, a long day or a late night, Bonks has your back... & your front.
